Subject: Lead Based Paint Testing/Disclosure

The Belton Housing Authority contracted with Warrington, Inc. in February 1989 to conduct lead based paint inspections in units built before 1978. It was determined that lead was found in the paint on the outside of the back doors and on the back screen doors.

As of the date of this notice, all back doors and back screen doors have been replaced during renovations. Therefore, all BHA properties are free of lead based paint.

For more information on lead based paint, click on the link below:
